Soil Science Presentation Course, Seminar Course, and Exit Seminar Policy

1. Agron. 601 Agronomic Science Presentations, 2 Cr, S.
   Agron. 601 is offered in the spring semester. All soil science graduate students are required to take the 2 credit professional development course.

2. Agron. 600B Soil Science seminar, 1 Cr, S.
   Agron. 600B is offered in the spring semester. All soil science graduate students working for an MS degree are required to complete 1 credit of Agron. 600B, and students working for a PhD degree are required to complete 2 credits of Agron. 600B.

3. Exit seminar
   All graduate students are required to present an exit seminar based on their thesis or dissertation work sometime during the semester that they take their final oral exam. Each exit seminar should be arranged and scheduled jointly by the graduate student, the Chair of the POS committee, and the Agronomy Department Program Assistant in Student Services. Each Soil Science exit seminar should be publicized in the Agronomy Department, and members of a student’s POS committee should be specifically invited to attend the exit seminar. The exit seminar must be presented before a graduation slip will be signed by the department.
