**Be Aware of Summer Hours on Campus**

Beginning May 13, the Graduate College, along with many other administrative units across campus, will have summer hours from 7:30 AM to 4:00 PM.

The Graduate College will have some staff available from 4:00 PM to 5:00 PM, but help will be limited. If you need to help from the Graduate College between May 12 and August 16, be aware of these staffing considerations.

Likewise, if you require help from other units on campus, it would be wise to check if their hours differ during the summer.

The Department of Agronomy will not change the main office hours of 8:00 AM to 4:30 PM.

**No Immediate Impact on Lync Users From Phone System Upgrades**

Iowa State University is currently converting to a new telephone service. Most Lync customers will not receive new telephones or be converted to the new service through Aastra.

Users with typical phone service (NOT Lync) are scheduled to have their phones replaced during the week of June 7-13.

Once the initial conversion to the new Aastra telephone system is complete, on July 1, all Lync users will have the opportunity to convert completely to Aastra, or to use Aastra for some services while continuing to use Lync for other services such as instant messaging, presence and Lync meetings.

More information for Lync users will be made available after July 1. Non-Lync users can find information on the new phone system from IT Services New Phone Service site.

**Eduroam Provides Network Access At Other Campuses**

If you plan to travel to another University campus, you may have immediate access to the institution’s computer network via Eduroam.

Eduroam allows you to use your Iowa State University NETID and login to gain access to the Internet at participating Eduroam campuses worldwide.

For more information, visit the IT Eduroam site.

More information about Eduroam and a list of participating institutions are available at eduroam.org.
