Now Is the Time to Complete FP&M Key Audit

If you have any keys issued to you from the University, you should have received an email this week with a link to the key audit form. The key audit is a simple, browser-based system that takes roughly two minutes to complete.

Complete your key audit SOON to avoid losing the email in the bottom of your inbox. Key audits are to be completed by February 3, 2014. Failure to complete the key audit will result in frequent pestering by the building manager and possible lost key fees of $25 per key.
