

CINVESTAV Symposium on Genetic Transformation and Functional Genomics of Maize

October 24–26, 2005
Irapuato, Mexico

This 2.5 day symposium will focus on the latest development in genetic transformation and functional genomics of maize and other plants. In addition to lectures presented by internationally reputed leading scientists, the meeting will provide opportunities for interactions among researchers through poster presentation and laboratory demonstration.

Symposium organizers:

K. Wang (Iowa State Univ., USA) & **L. Herrera-Estrella** (CINVESTAV, Mexico)

Speakers:

J-L. Cabrera-Ponce (CINVESTAV, Mexico), **V. Chandler** (Univ. of Arizona, USA), **H. Dooner** (Rutgers Univ., USA), **T. Dresselhaus** (Univ. of Hamburg, Germany), **S. Gelvin** (Purdue Univ., USA), **H. Kaepler** (Univ. of Wisconsin-Madison, USA), **T. Komari** (Japan Tobacco, Japan), **P. León** (UNAM, Mexico), **O. Martínez de la Vega** (CINVESTAV, Mexico), **B. Thompson** (North Carolina State Univ., USA), **J-P. Vielle** (CINVESTAV, Mexico), **P. Waterhouse** (CSIRO, Australia)
